

CRCI Pledge Of Excellence

Fostering a new layer of transparency, user protection, and accountability, establishing new standards of operational integrity and trust in the DeFi ecosystem.

What is the CRCI Pledge of Excellence?

The CRCI Pledge of Excellence program is a commitment to continuously advocate for the consumer. This works best when you get authentic reviews that offer critical reflection that are designed to refine, not punish. DeFi leaders can further demonstrate their commitment to their users and investors can identify projects that align with their priorities.

Non Members

- **Profile Updates:** Project can update their CRCI profile with their official channels and resources.
- **Tokenomic Summaries:** Projects can clarify their tokenomic distribution and vesting strategies.

CRCI Pledge of Excellence Members

- ⦿ **CRCI Score Consultation:** Direct expert overview of the CRCI Review Score.
- ⦿ **Actionable Feedback:** Specific recommendations for strategic improvements to publicly available content to improve their CRCI Score.
- ⦿ **Priority CRCI Score Updates:** Reactive CRCI Review updates to coincide with project launches, improvements or other publicly verifiable milestones.
- ⦿ **Brand Asset Licensing:** Permission to use CRCI brand assets in marketing efforts.
- ⦿ **CRCI Improvement Program:** Feedback channel to offer improvements to the CRCI platform.
- ⦿ **CRCI Score Summaries:** Project page gives full CRCI Score summary.
- ⦿ **Demerit Arbitration:** Consultation and potential resolution arbitration on demerit instances that offers transparency and clear paths to resolutions.*

With our external expert evaluations, we offer an exclusive opportunity for you to demonstrate operational accountability that self-assessment alone cannot achieve.

*Demerit Arbitration scope and feature implementation TBD. Subject to change.

Success and failure are not events, they're a process.

Defining DeFi Excellence

We recognize that the CRCI's methodology, focusing exclusively on publicly accessible content, is not an assessment of success or failure.

However, we view this as a starting point for developing a culture of accountability and improvement in an industry that has yet to define its standards.

The CRCI fills a vital gap in our ecosystem where bad actors and ill-prepared projects currently enjoy equal status and opportunity as our industries most important innovators.

We feel the willingness to embrace accountability distinguishes true excellence from those that forego such responsibility.
